Subject: Microsoft Settlement

To whom it may concern:

I have read the proposed settlement in the Microsoft antitrust case, and I am not in favor of it in its current state. This is a vote against the current settlement.

In my opinion, the settlement should have provisions which open the market fairly to competitors of Microsoft and include as few loopholes as possible, which Microsoft has abused in the past and will continue to abuse in the future. For example, Microsoft should not be allowed to penalize OEMs who sell computer systems with competing software products.

Thank you,
